PACIFIC ISLANDS

Top 15 historical targets | Melanesia, Micronesia and Polynesia, including Hawaii

DETAIL MAPS Numbers match the ranked guide on page 2. All maps north-up; detail scales differ.

Archive: Jan 1-Oct 21, 2026. Frequency ties use alphabetical order; these are not 15 uniquely higher-frequency targets.

Australia, New Zealand and Southeast Asia are excluded. Scope includes Papua New Guinea and Hawaii.

Relief: NOAA ETOPO1 / Basemap. Detail imagery: EOX / Copernicus Sentinel 2025, CC BY-NC-SA 4.0. Sources on page 2.

15 TARGETS TO REMEMBER

Ranked by distinct daily appearances in the saved January 1-October 21, 2026 archive

01 Honolulu

Oahu, Hawaii | 4 appearances

South shore of Oahu; northwest of the Big Island.

Dates: Jan 4 Aug 24 Sep 7 Oct 16

02 Hagåtña

Guam | 2 appearances

West coast of Guam, north of Apra Harbor.

Dates: Jan 24 Aug 14

03 Nuku'alofa

Tongatapu, Tonga | 2 appearances

Northern shore of Tongatapu; south of Fiji and Samoa.

Dates: Jun 25 Oct 4

04 Papeete

Tahiti, French Polynesia | 2 appearances

Northwestern shore of Tahiti; far east of Tonga.

Dates: Mar 31 Jul 13

05 Port Moresby

Papua New Guinea | 2 appearances

Southern coast of eastern New Guinea, beside the Coral Sea.

Dates: Feb 20 Sep 16

06 Apra Harbor

Guam | 1 appearance

Harbor on the west coast, southwest of Hagåtña.

Dates: Jun 21

07 Guadalcanal

Solomon Islands | 1 appearance

Island-wide target; distinguish it from Honiara on the north coast.

Dates: Oct 11

08 Guam

Micronesia | 1 appearance

Island-wide target; the saved game pin is inland from the east coast.

Dates: Jan 6

09 Hilo

Hawaii Island, Hawaii | 1 appearance

Northeastern coast of the Big Island.

Dates: May 1

10 Honiara

Guadalcanal, Solomon Islands | 1 appearance

North coast of Guadalcanal, east of Papua New Guinea.

Dates: Jul 7

11 Lae

Papua New Guinea | 1 appearance

Northeastern coast of New Guinea, at the head of the Huon Gulf.

Dates: Mar 13

12 Majuro

Marshall Islands | 1 appearance

Atoll north of the equator and northeast of Nauru.

Dates: May 2

13 Mauna Kea Beach

Hawaii Island, Hawaii | 1 appearance

Northwestern coast of the Big Island; a beach, not the summit.

Dates: May 4

14 Mauna Loa Observatory

Hawaii Island, Hawaii | 1 appearance

Inland on Mauna Loa; southwest of Hilo.

Dates: May 9

15 Nauru

Micronesia | 1 appearance

Small island just south of the equator, southwest of Majuro.

Dates: Jan 31

How the list was selected: 22 eligible named targets occur in the saved snapshot. Five repeat; 17 occur once. The first ten of those single-appearance targets are included alphabetically. Alternate spellings of Honolulu, Hagåtña and Nuku'alofa are merged; island-wide targets remain separate from cities and landmarks.

Sources: saved daily-targets.json; linked MapTap daily entries above. No claim is made about dates outside this snapshot.

Map sources: NOAA ETOPO1 via Matplotlib Basemap; EOX cloudless imagery (contains modified Copernicus Sentinel data 2025).
